

# Kartographie-Hacks in ArcGIS Pro

Nele Peschel

*Esri User Conference Austria 2025 – powered by SynerGIS*

# Agenda

- Maßstabsbasierte Symbolanpassungen
- Sich Überlappende Features
- On-The-Fly Generalisierung
- Effekte: Symbol Layer
- Styles: ArcGIS Living Atlas
- Raster Functions
- Layer Blending

# Maßstabsbasierte Symbolanpassungen

The screenshot displays the ArcGIS Desktop interface. The main map shows a street network in Vienna with a layer of trees. The 'Symbology - Bäume' pane is open, showing the following configuration:

- Primary symbology:** Unique Values
- Field 1:** Art
- Color scheme:** A multi-color legend.
- Classes:** 3 symbol classes

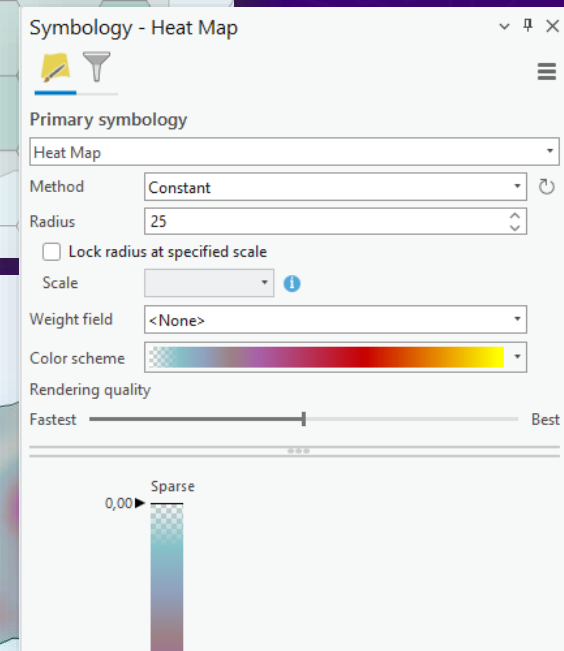

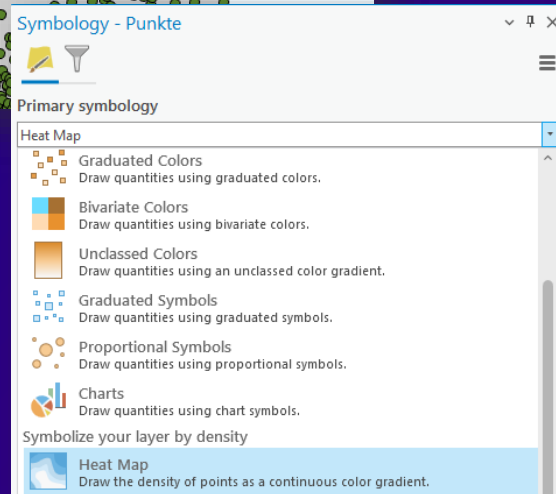

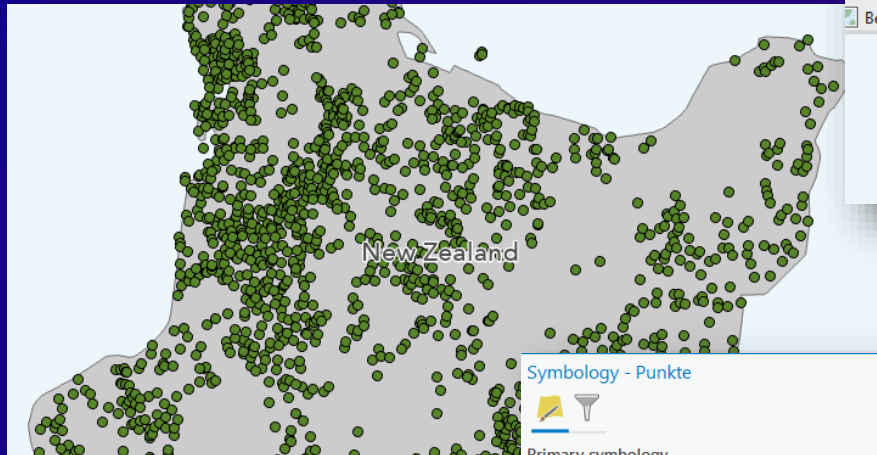

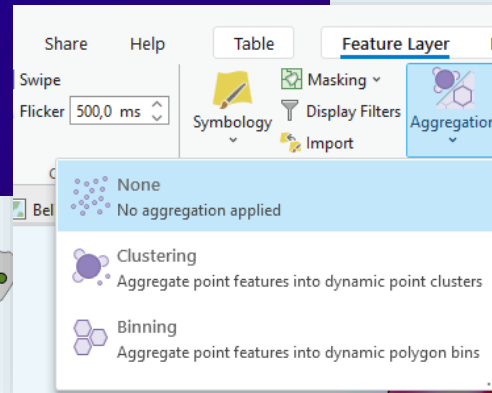

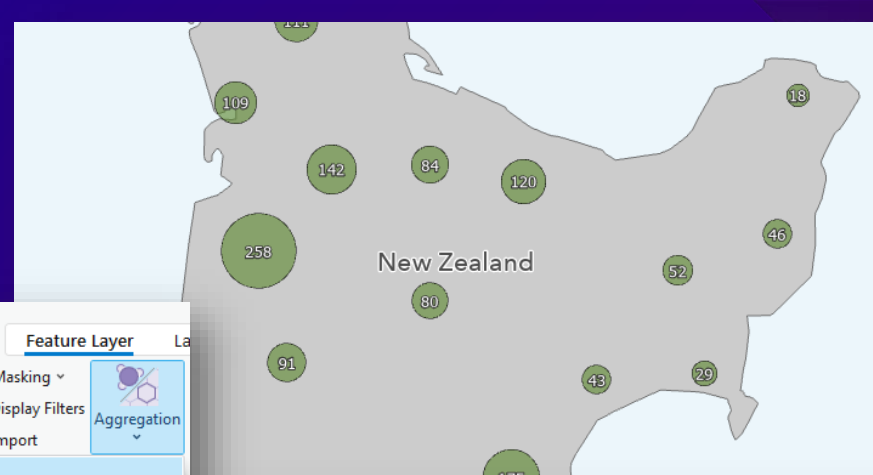

Symbol	Value	Label
	Groß	Groß
	Mittel	Mittel
	Klein	Klein

The 'Drawing Order' pane on the left shows the following layers:

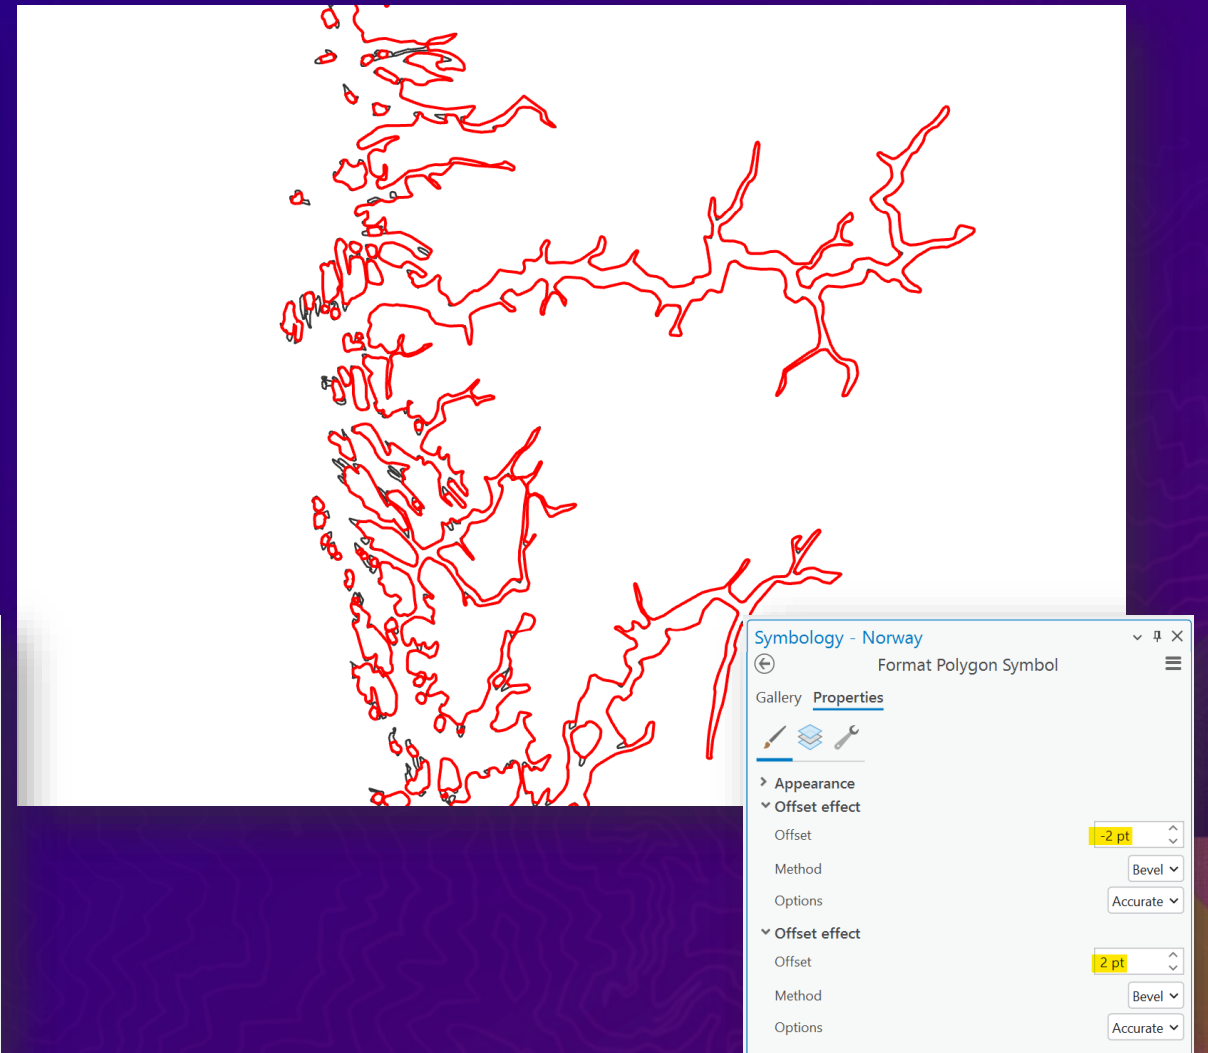

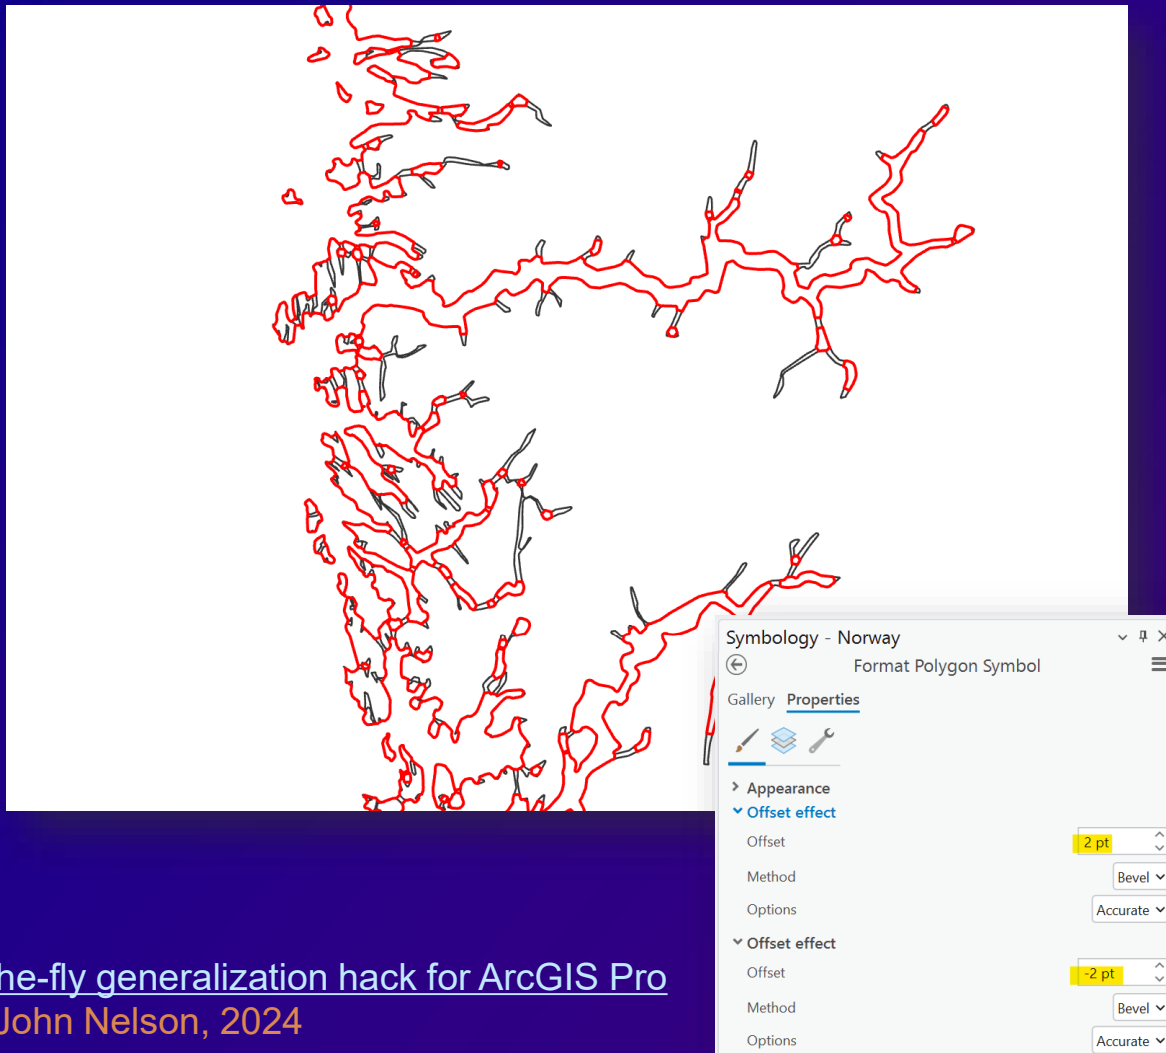

- Wien
- Hellgraue Referen...
- Bäume
- Art
- Groß
- Mittel
- Klein
- straße
- Hellgraue Grund...

# Sich Überlappende Features

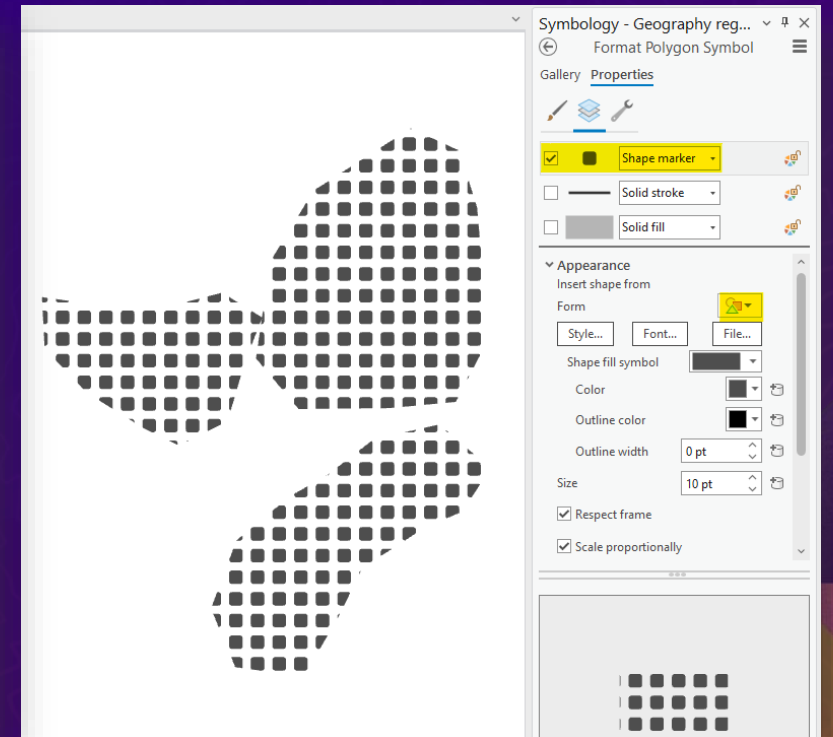

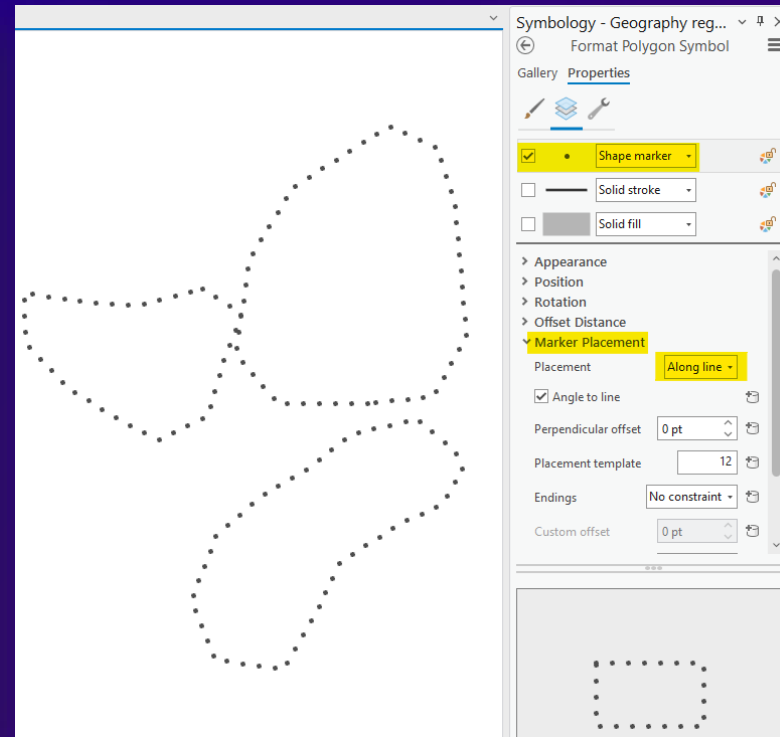

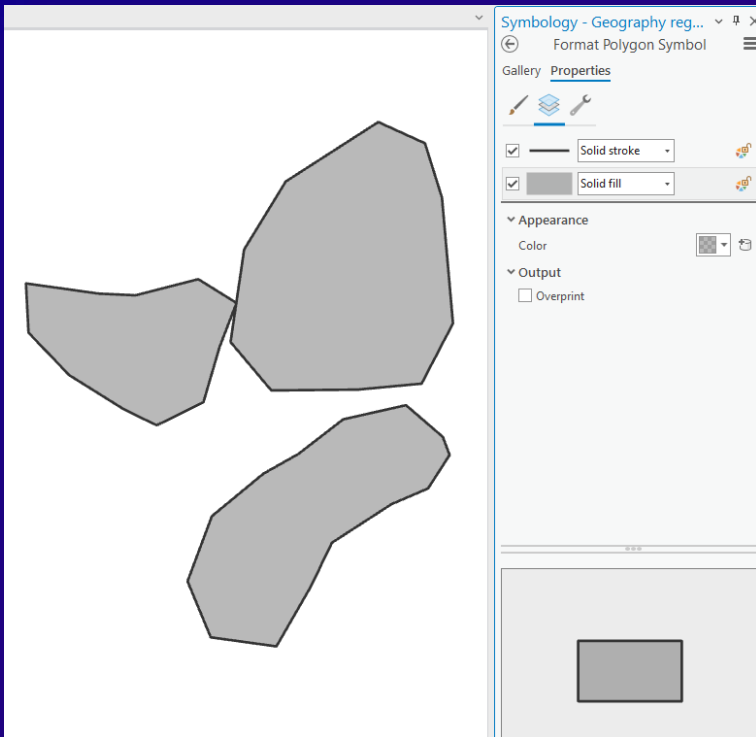

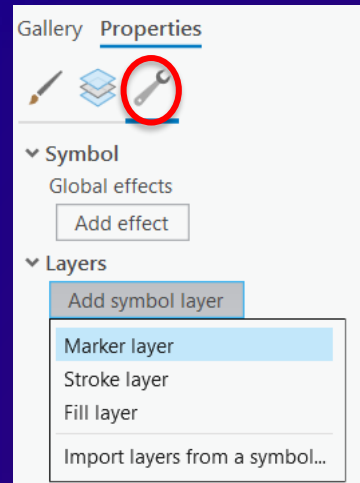

1. Clustering
2. Binning
3. Heat Maps

# On-The-Fly Generalisierung

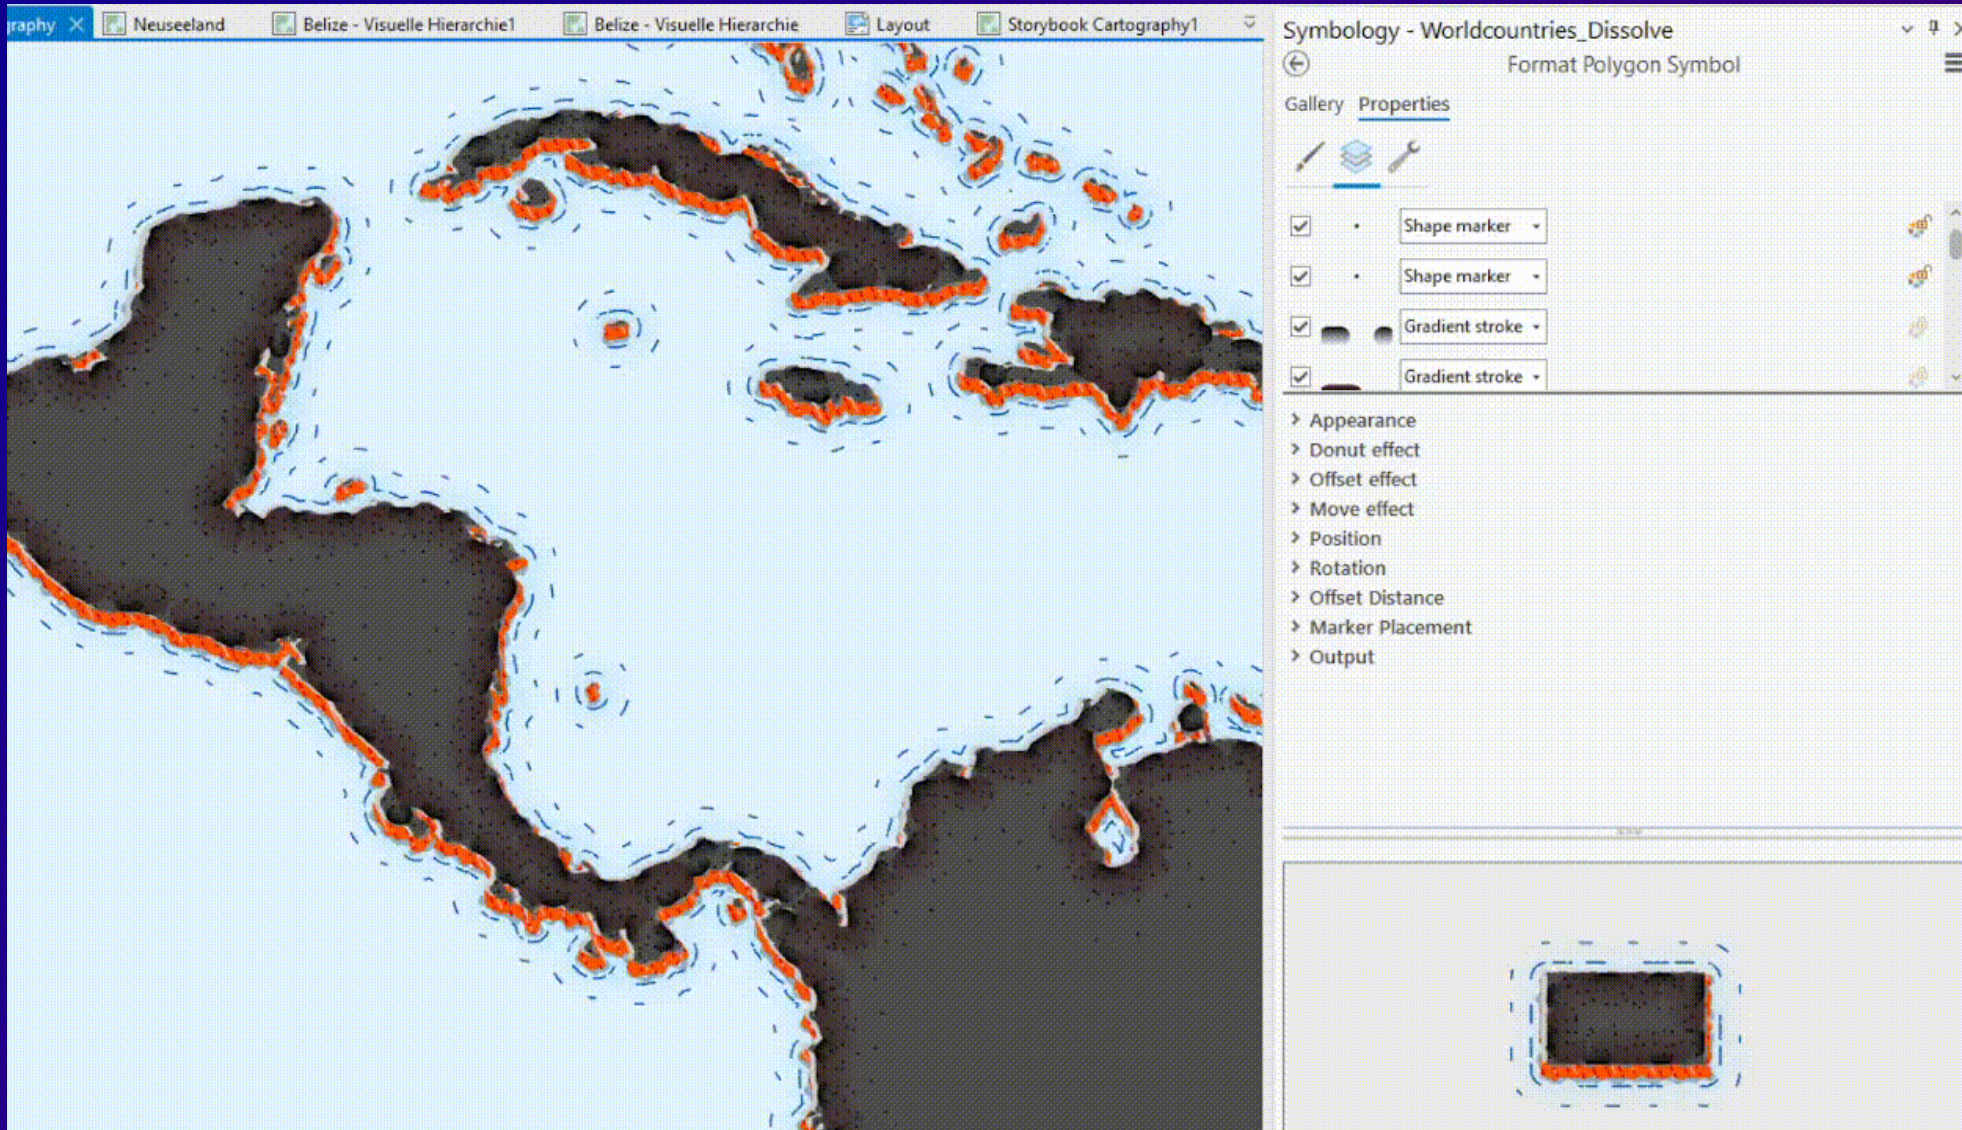

# Symbol Layer Effekte

# Symbol Layer & Effekte

### Info über diesen MOOC

Learn from experts and make beautiful maps using ArcGIS Pro.

Once, only cartographers made maps. Today, anyone can. Still, cartographers can teach people to make better maps, just as chefs can show people how to prepare better meals. With coaching from accomplished cartographers and practical, hands-on exercises, you'll become a smarter mapmaker, ready to go beyond the defaults and produce engaging maps that communicate with impact.
